Profile Summary

Business Intelligence Consultant with 4+ years of experience delivering commercial, operational, and revenue analytics for global insurance operations. Strong expertise in Power BI, Tableau, SQL, SAS, and Excel, with a proven track record of automating reporting workflows, governing enterprise-level dashboards, and supporting UK and international business stakeholders. Experienced in KPI reporting, data governance, and executive-ready analytics that drive efficiency, profitability, and decision-making.

Work Experience

Business Intelligence Consultant | Allianz – UK Operations

Mar 2025 – Present | Hybrid

- Supported UK commercial and business teams by delivering reliable analytics, reporting, and data visualizations, enabling informed operational and strategic decision-making.
- Designed, developed, and maintained 10+ Power BI and Tableau dashboards, ensuring consistent metric definitions, clarity, and usability across stakeholders.
- Managed and governed 60+ recurring and ad-hoc reports covering commercial, performance, operational, and sales-related metrics.
- Worked with UK commercial, revenue, and sales data sourced from Salesforce and downstream reporting systems, ensuring appropriate handling, accuracy, and controlled access.
- Applied SAS, SQL, and advanced Excel analysis to validate data, investigate trends, and support deeper analytical and business requirements.
- Implemented and maintained data governance practices, including metric standardization, report ownership, version control, documentation, and refresh governance.
- Automated reporting workflows and refresh cycles using Power Automate, reducing manual reporting effort by approximately 40–50% and improving delivery consistency.
- Performed regular data quality checks, reconciliations, and validation to ensure alignment with approved business and sales definitions.
- Delivered ad-hoc analysis, dashboards, and executive-ready outputs for leadership reviews, planning cycles, and commercial discussions.
- Collaborated closely with business, sales, and technical stakeholders to translate commercial requirements into structured analytical solutions.
- Optimized Power BI and Tableau dashboards to improve load performance, refresh reliability, and stakeholder usability.

Data Analyst – BI & Reporting | Allianz – Australia Operations

Jan 2024 – Mar 2025 | Onsite

- Supported service, operational, performance, revenue, and billing analytics for Allianz operations, enabling data-driven business decisions.
- Managed and maintained multiple dashboards covering operational efficiency, service performance, revenue trends, SLA reporting and incentive metrics.
- Designed and delivered manager-level performance dashboard used across Allianz Services India for leadership visibility.
- Owned incentive, payroll, and performance reporting for 250+ employees, ensuring accuracy, timeliness, and alignment with approved metrics.
- Produced and managed 40+ recurring and ad-hoc reports, including performance summaries, billing views, and management dashboards.

- Contributed to business outcomes associated with €20M by supporting data-driven process improvements, improving service efficiency and profitability visibility.
- Produced and managed recurring and ad-hoc reports, including performance summaries, billing views, and management dashboards.
- Automated approximately 90% of recurring reporting, significantly reducing manual effort and turnaround time.
- Delivered ad-hoc analysis to support leadership decisions, operational reviews, and issue investigations.
- Created business decks, executive summaries, and presentation-ready insights for senior stakeholders.
- Performed data validation and reconciliation to maintain high data accuracy and consistency across reports.
- Worked closely with business and leadership stakeholders to gather requirements, explain insights, and support strategic and operational decision-making.

Senior Customer Service Associate | Allianz Services

Feb 2022 – Dec 2023 | Onsite

- Managed end-to-end customer support for Australian insurance customers, handling service requests and issue resolution.
- Monitored service quality and performance metrics to identify gaps and improvement areas.
- Prepared daily and weekly performance reports for team leads and managers.
- Proactively addressed potential escalations through structured follow-ups and analysis.
- Supported onboarding and mentoring of new hires, providing quality feedback.
- Conducted quality checks to ensure compliance with service standards and SLAs.
- Collaborated with team leads to improve productivity, engagement, and service consistency.

Community Manager | Daily Skills

Apr 2021 – Feb 2022 | Remote

- Led community and customer support operations for an online learning platform.
- Coordinated with support teams to ensure timely issue resolution and service quality.
- Designed and delivered training sessions to improve team effectiveness.
- Monitored customer feedback and engagement to identify improvement opportunities.
- Worked with internal teams to streamline support processes and communication.

IELTS Educator | Brighten Educational Academy

Oct 2020 – Feb 2022 | Onsite

- Delivered IELTS training across speaking, writing, reading, and listening modules.
- Developed course materials, assessments, and learning plans.
- Evaluated student progress and provided structured feedback.
- Encouraged interactive learning and continuous improvement.
- Supported curriculum planning and academic quality standards.

Head of Creative Services | JC Media

Jul 2016 – Oct 2020 | Hybrid

- Led creative strategy and execution across digital and print media projects.
- Managed design and content teams to deliver client-aligned creative solutions.
- Collaborated with clients to translate requirements into effective visual communication.
- Oversaw project planning, timelines, and quality control.
- Ensured brand consistency and adherence to creative guidelines across deliverables.
